

LAWTON CAPTURED
MANY INSURGENTS

BEGAN PREPARATIONS FOR IM-
PORTANT CAMPAIGN.

Lawton's Withdrawal From Laguna de Bay Country Not Expected in Washington—Thought Expedition For Purpose of Destroying Insurgent Forces.

Manila, April 15.—[Special]—General Lawton and his expedition arrived here this morning, bringing a number of captured insurgents and boats. They immediately began preparations for an important land campaign.

Lawton's Withdrawal a Surprise

Washington, April 17.—[Special]—The withdrawal of Lawton from the Laguna de Bay country was not expected here. The war department officials say that the expedition was for the purpose of destroying the insurgent forces in southern Luzon and to spread broadcast the recent proclamation of the Philippine commission. The officials are confident regarding the new campaign to the northward. It is believed the movement will be made in San Fernando, where the insurgent leader has established headquarters.

Manila, April 17.—Acting under orders from Gen. Otis, Gen. Lawton returned Sunday from his campaign around Laguna de Bay, abandoning eight towns and twenty miles of territory along the lake, which is a rebel stronghold.

The gunboat Princeton arrived here Saturday.

Gen. Otis has ordered Gen. Rios to transfer the Supreme court to the American authorities. Col. Crowder has been appointed to reorganize the civil judiciary, which is greatly in need of an overhauling.

Alleged Statement of Lawton.

New York, April 17.—The World's Manila correspondent cables the following:

"Maj.-Gen. Lawton, at Paete, authorized the correspondents to make this statement:

"The present prospect is that 100,000 troops will be necessary to pacify the Philippine islands. The difficulties in the way are those of fighting guerrillas in a tropical country.

"With my brigade I could force my way from one end of the islands to the other if I did not have to hold the territory I traversed. But leaving garrisons behind would soon eat up the whole force."

"Gen. Lawton regretted exceedingly being compelled to evacuate the territory he had captured."

Final Reply Demanded of Aguinaldo.

Madrid, April 17.—Gen. Rios, the commander of the Spanish troops in the Philippines, telegraphing under date of April 15, says:

"Hostilities at Malolos have been suspended. Gen. Otis has given me a pass for my chief of staff and another officer to take my letter asking Aguinaldo to liberate the Spanish prisoners at an early date on the grounds of humanity and international law, and demanding of him, in case of refusal, that he give a final reply with the view of placing it before the civilized world. I offer in exchange 1,500 native prisoners captured by the Americans and placed at my disposal for this purpose by Gen. Otis. In a conference between the archbishop and leading merchants they drew up a strongly worded letter, which has been taken to Aguinaldo by Baron Dumare. This is my last effort. I will communicate the result."

SOLDIERS DEAD AND WOUNDED.

Gen. Otis Sends an Additional List of Casualties.

Washington, April 17.—The following additional casualties about Manila have been reported by Gen. Otis: The five men of the North Dakota regiment reported killed are probably those who, with three comrades, ran into a nest of Filipinos near Laguna de Bay and were unable to escape.

PLANNED PLEASANT SURPRISE

WISE LEGISLATIVE MEASURE

Passes An Act That Will Save Many a Boy From Prison

Members of the police force warmly commend the law passed by the legislature regarding junk shops. It provides that proprietors of such institutions shall not purchase anything of value from persons under eighteen years of age without the written consent of parent or guardian. The penalty for violation is left to the discretion of the court.

had this law been passed and enforced several years ago Racine would not have so many entries to its credit on the books of industrial institutions. More than half the boys who have gone wrong here in recent years, have practiced petty thievery and sold the plundered junk dealers and spent the proceeds for liquor and tobacco. When the lad decides that he is a pretty tough young fellow, a "sport," and so forth, he needs money to show how "game" he is.

ADOPTION SYSTEM NOT GOOD

New York Incurables Do Not Grow Better in Wisconsin

Orphans sent to southern Wisconsin homes of late years, especially those received for adoption in Bower City homes, from the several eastern institutions that adopt these homeless and forsaken urchins have not proved a success. At least if one is to judge from proceedings that have taken place in Rock county courts during the past two years this statement is not in the least exaggerated.

During the past few months several of these boys and girls who have been adopted have been brought into Rock county courts and sentenced to the different state institutions for no other reason than that the parents say that they are unmanageable. In most instances these children have been boys of about 10-year age who are hard to manage or have not been brought up in the right manner by the parents in charge. The greater portion of those adopted have been from institutions in New York city and have been sent west when no older than two or three years of age.

INDIANA'S WHEAT PROSPECTS.

LaPorte, Ind., April 17.—There has been considerable speculation throughout Indiana on the present condition and future prospects of the wheat crop. Reports have been freely circulated that the severe weather of the past winter had killed the wheat in many counties and that the crop of the state would be much below the average. C. H. Michael of this city has just had a careful estimate of the crop made in every county of the state, and from it he figures that the present outlook indicates 80 per cent of an average.

FORECAST OF WEATHER

Chicago, April 17.—[Special]—Forecast for Wisconsin:

Partly cloudy tonight; Tuesday showers, warmer.

LOSS TO WISCONSIN FARMERS

Due to Smut in Oats—Remedy For Same At Slight Cost.

The loss to the farmers of Wisconsin due to smut in oats amounts to hundreds of thousands of dollars annually, all of which may be saved by treating the seed oats before planting, at a very slight cost.

A method for preventing oat smut has now been found that is cheap and simple. All that is necessary is to thoroughly saturate the seed oats with a solution made by adding one pound of formalin to fifty gallons of water, allowing the seed oats to remain saturated for two hours, before spreading them out to dry.

To use this remedy, place a layer of oats three or four inches thick on the barn floor and sprinkle them with the formalin solution until they are entirely wet. Then another layer may be placed on the top of the first layer and sprinkled as before, repeating the process until all the seed oats have been sprinkled. Then leave them in the pile for two hours, when they should be spread out thinly to dry. If they are to be sown broadcast, it will not be necessary to dry them.

Formalin may be purchased at any drug store and costs from 35 to 40 cents per pound. About one gallon of the solution is enough to sprinkle a bushel of oats, hence one pound of formalin is enough to treat 50 bushels of seed oats. Formalin is not dangerous to use, and does not corrode the flesh. The oats will not be likely to be injured by it, even if left in the pile somewhat longer than two hours.

WAR AGAINST SPARROWS.

The English sparrow, which has won so bad a reputation for quarrelsomeness on this side of the ocean, is evidently becoming unpopular at home. At a recent meeting in London of the Society for the Protection of Birds it was proposed to petition the authorities throughout the country to adopt measures for checking the increase of house sparrows, because they drive away wallows and martins from their nests and destroy their eggs and nestlings.

AMERICAN SULPHUR.

The war with Spain is said to have given an unexpected impulse to the production of sulphur in the United States. Hitherto the brimstone deposits known to exist in the west have not been energetically worked, but now sulphur mines are in operation in Utah and in Humboldt county, California, on a scale, which promises that the enterprise will be permanent.

THE SABBATH DAY AT THE CHURCHES

LARGE CONGREGATIONS ASSEMBLE FOR WORSHIP.

Many at Baptist Church to Hear Rev. Kempton's Third Sermon of Series "Fresh Light on Old Truth"—Rev. A. G. Wilson. Preached on "The Presents Rights of Coming Man."

A large congregation greeted Pastor Kempton again. He gave the third sermon of the series "Fresh Light on Old Truth." The subject was "What is Sin?" His text was in I John 5-7. The history of many kingdoms has been written but the history of the kingdom of sin has never been written. Many definitions of sin have been given. Let us see what the bible definition is. The popular belief is that it is an outward action of sin, and many believe if they keep from outwardly breaking the law, they do not sin. But this is not all. Some pride themselves upon being sinful.

The mistake which most of us make is that outward actions are the only sins we commit, but let us notice that we also sin in our thoughts. We are responsible for our thoughts. According to our wills are our thoughts. God holds before us the ideal that our every thought should be given to God and his service. God knows us most in our thoughts. Every thought is written in God's eternal book. Science illustrates this in many ways.

The scriptures exalt good thoughts and if we have our minds full of good thoughts we will not be able to harbor evil thoughts.

Again, beneath all this is the evil heart.

First, there are evil actions. Second, there are the evil thoughts and beneath them all are the evil hearts. If we cherish these evil desires in our hearts we are responsible for them and we will certainly suffer for them as one who has, out of pity, warmed in his bosom the slumbering serpent which turns and stings him to death.

If we properly consider this subject we will see how helpless we are and how much we need the help of our dear Saviour, who alone is able and willing to help us to overcome our evil hearts and give us freedom from sin and its direful results.

In the evening, Mr. Kempton gave the second of his series upon "Difficulties With the Bible." The subject was "The Romantic Story of the English Bible."

The Bible was translated into many different languages, but it was over a thousand years after Christ before it was translated into the English. Only the learned had it in those days. The common people could not have it.

The first effort to give the world the English was about 1200 years ago. The old troubadours sang songs that were crude translations of the Scriptures and thus the people learned something of the Scriptures.

The Gospel of John was given to the world by the Venerable Bede in the eighth century.

In 1379, John Wycliff, was tried for his life because he had dared to translate parts of the Bible into the English. He escaped with his life, but he was excommunicated from the church and he lived to finish translating the whole bible in about the year 1400. His bones were afterwards burned by the command of the Catholic church.

The bible cost very much in those early days. About \$200 was the price. It was dangerous for people to own the bible then. We read in one place where seven men and women were burned because they had taught their children the Lord's prayer.

The greatest thing in the history of the bible was the invention of printing. In John Wycliff's day, it took a man ten months to make a bible. Today one press in England is making 120 bibles in an hour.

Then a bible cost \$200,000, now we can get a better one for ten cents.

Wm. Tyndall translated and printed the first new testament into English. The priests were trying to suppress it but it was sent to England in hay, loaves of bread, etc. They were burned by the hundreds, but still they were distributed among the people. Even the Lord Bishop of London, unwittingly furnished the means to Tyndall in printing the bible. Tyndall was burned at the stake but his work still lives. Only three years after the death of Tyndall a bible was placed in every church in England.

Only twenty years after and the queen at her coronation receives the bible and pledged herself to live and rule her kingdom by its teachings. Time fails us to speak of the King James and the revised versions.

May the Lord help us to prize the bible as we ought to do.

At All Souls, Unitarian Church.

Rev. A. G. Wilson preached to a large congregation in All Souls church yesterday morning on "The Present Rights of the Coming Man." He discussed

Soul and Body

are closely connected. A sick body means bad temper, unhappiness—in fact, a sick soul. One reacts on the other. Strengthen the body by cleansing and purifying the stomach. Evil thoughts will fly away and you'll find life a merry song. Hostetter's Stomach Bitters is a blood purifier and stomach tonic. certain phases of domestic life but not often presented from the pulpit. We publish few extracts from the sermon. The text was taken from Matt. 18-2. "And Jesus called a little child and set him in the midst of them."

The human race is clamoring as never before for justice and is demanding recognition and the emoluments of life. It will be a gracious service to speak on behalf of the coming man, and for those who are too weak to speak for themselves. The rights of a human being commence before it is born and do not end until consigned to his long rest, and even then he has a right to a kindly remembrance and to eternal justice from the eternal God. The cradle and the coffin are the two lids of a book of human rights, but the preface is written before the story commences or the hero is introduced. It is a wise feature of the divine economy that gives to every man a father and a mother, that makes the family arch the only royal highway into the world; that extends the period of human infancy to strengthen the domestic bonds. It is a question in some quarters whether the present generation has a moral right to increase the population of the world in view of the hard time we are having to take care of those already here.

Not every home has hospitality for the "coming man." The social demands of the age, the love of ease, the spirit of selfishness are tending to close the doors of many homes to posterity which by reason of culture and affluence are best equipped for the duties of maternity and the highest type of childhood.

The chances of getting into this world under favorable circumstances are growing less all the time.

The evolutionary social forces are at work to produce a better type of man. But God in the natural order works slowly and man should hasten the process by the application of reason based on experience. Society should come to the rescue of our unborn generations and enforce some very well known laws of heredity.

The best way to improve society is to improve the individual from the ground up. A good many questions of life and morals must be settled if at all for the individual before he is born. All ethics and spiritual reality rest on a physical basis. "First the natural and then the spiritual" is the philosophy of Paul and Herbert Spencer.

A little wholesome legislation for the coming man, stipulating the intellectual and physical conditions of a legal marriage would under unnecessary very stringent laws for his control after he got here. There was a good deal of hard facts and sound sense as well as witicism in the saying, "A child should be very careful in the selection of his parents."

The intelligent cry of future generations is for a set of fathers and mothers whose intellectual and moral traits are worthy and safe to be continued and this is not beyond the province of social legislation. The right sort of a legally ordered marriage altar would be a purifying rite in the midst of life's swirling tides.

Mr. Wilson set forth the rights of the child to the cause of his own mother; his right to be taught the reality and necessity of law and government; his right to protection from ignorant and brutal parents and from the avarice that compels an undue degree of child labor; his right to live in a peaceful and loving home.

The coming man has a right to be taught a true and rational religion. False arithmetic must be corrected in experience, but false theology is hard to get rid of. Clouds of deep mystery must hang in every sky, but they should carry no element of terror to the child heart.

M'GILIVRAY'S BILL WAS TURNED DOWN

PROVIDING FOR DISTRIBUTION OF STATE JOBS.

Final Adjournment Will Probably Not Be Taken Until April 28th—First Important Bill to Come Up This Week Is Bill Increasing Railway Taxation.

Madison, April 17—[Special]—The legislators have given up the idea of winding up the session this week and final adjournment will probably not be taken until April 28. One week from Friday. Considerable important legislation has been considered during the past week, but there are several important bills still awaiting action, among them the Orton bill increasing the tax on life insurance companies, which has passed the assembly and will be reported by the senate committee Tuesday; the bill adding about \$300,000 annually to the taxation of railroads; the True marriage license bill; the university appropriations; the general fish and game bill and the tax commission bill.

Senator McGillivray's unique bill providing for the distribution of state jobs among the counties according to population was turned down in the assembly Friday by the narrow majority of two and its fate was sealed by the defeat of a motion to reconsider. The senator from Black River Falls, who thought he saw one of his pets about to be dignified by passing both houses has not smiled since. It is not likely that the bill would ever have received the governor's signature if it had been passed, nor that so many would have voted for it if they had not felt certain the governor would veto it if it came to him.

Another bill killed during the week was the one providing for the licensing of barbers. Mr. Wheeler's bill was passed by the assembly but died without a struggle in the senate. Senator Mills had another bill containing the same provisions which he tried to pull through after the assembly bill was killed and he found ten supporters, but not enough to pass it.

One of the first important bills to come up in the senate this week is that increasing railway taxation. It went to a third reading in the assembly Friday with only seven votes against it which insured its passage there. Its supporters express confidence that it will go through the senate also, though there is no doubt an effort will be made there to amend it by cutting down the amount of the increase. It was originally introduced to increase the tax on the smaller roads only. Mr. Hall got in an amendment extending the increase to the larger roads and making the total increase about \$600,000. Judge Orton put in an amendment to this in the way of a substitute, making the total increase about \$300,000 and this is the bill passed. The assembly spent most of two days' sessions in talking about the bill and the senator orators are getting ready for it now. They are not as long winded as the assemblymen, however, and the debate in the upper house will probably not be so lengthy.

The celerity and unanimity with which the senate passed the bill providing for a state tax commission, was a surprise to most everybody, and was largely the result of the forcible argument for the bill made by Senator Whitehead, who as the chairman of the committee on assessment and collection of taxes, fathered the measure. The only objection which had been heard to the bill was the provision making the terms of the commissioners ten years, and these objections were withdrawn after Senator Whitehead had pointed out the importance of the work to be done and the fact that no man or men with the ability to do it could afford to give up their other business and then devote the necessary time and labor to this for any shorter period. It is said that Gov. Scofield has a man already picked out for the head of the commission. He will receive a salary of \$5,000, the first assistant \$4,000 and the second assistant \$3,000 with their traveling expenses and the commission will also be provided with a clerk.

The bill patching up the fire and police commission bill which was so badly demolished by the reviewers that there was little of value left in it, went into effect by publication Saturday, just in time to prevent the new mayors in the several cities to which it applies, those of the third and fourth class, from reorganizing the police forces, which they could probably have done under the law as it appeared in the revised statutes. There was a strong suspicion that the bill at several stages of its progress had this object in view, but if so they were unsuccessful. W. A. BAILEY.

DEATH OF GEORGE H. MERRY

Peacefully Passed Away Last Saturday Evening.

George H. Merry, one of the pioneer residents of this city, passed into the shadows of the unknown beyond last Saturday evening at 10 o'clock at his home 213 South Academy street, at the advanced age of eighty years, five months and fourteen days. Mr. Merry's death was not unexpected, as he had been ill for some time. He was at one time engaged in the grocery business in this city and later in the oil business, but owing to failing health he was obliged to abandon his business pursuits. Besides a widow he leaves one child, a daughter, the wife of Rev. Poorman, of Darlington, Wis. Both Rev. and Mrs. Poorman were present when the end came.

Mr. Merry was a member of the Baptist church. He was an honorable citizen and was held in high esteem by a large circle of friends.

COLD WEATHER RAISED HAYOG

Killed Much Small Fruit Last Winter in Rock County.

Rock county fruit growers report that the cold weather has ruined many strawberry beds, and that grapes and raspberries have suffered quite severely. So far as can be ascertained, the apple, plum and cherry trees were not injured. Those who have sowed winter wheat say that they will be compelled to plow up their fields and plant them in corn, as the winter wheat has been killed.

The farmers will have a hard row to hoe this season. The season being very late compels the farmers to do an extra amount of work, while the pasture fields will not get into condition for grazing until late in May, which will compell them to feed the stock on dry food until that time.

CONTINUE BUILDING CARS

Business is Rushed on the Milwaukee Road These Days.

As an evidence of the present great activity in railway freight business, and suggestive of the expected continued prosperity in this direction, it can be authoritatively stated that the Chicago, Milwaukee and St. Paul Railway company is preparing to continue the work of building freight cars of various kinds during the entire coming summer and fall at its West Milwaukee shops. On May 1 the company will have completed the last of a general order for 4,000 cars of the various classes, which have been turned out at the West Milwaukee shops during the past year at the rate of fifteen standard box-cars a day and ten flat and other kinds a day.

HE KILLS HIS SIXTH VICTIM

Rajah, the Big Elephant, Was in Janesville Three Years Ago.

Rajah, the big elephant that has been seen here several times with the Lemon Bros. circus, killed Frank Fisher, its keeper, at the winter quarters of the circus in Argentine, Kas. Fisher was from Chicago, and had been with the show about six or seven years. He was about thirty years of age.

The keeper, becoming angry at the elephant, struck him fiercely with a "hook." The huge beast promptly turned on him, grabbed him with his trunk and threw him high in the air. When the body fell the elephant trampled it and gored it with his tusks till it was a shapeless mass.

Fisher is Rajah's sixth victim.

Let Us Overhaul Your Bath Room.

A great many bath tubs in this city were put in years ago. Likewise water closets. They are foul, ill-smelling and unwholesome and a menace to health. Bath tubs were boxed in and pipes out of sight, often leaking gas and accumulating dirt. You should throw these out and put in a bright porcelain tub and a syphon water closet with exposed nickel water pipes. You will take more comfort from than you can imagine. The price for this kind of this kind of work has got down to reasonable figures now. If you think of doing anything to your bath room. We will be glad to give you an estimate of the cost and other information and help which our experience would suggest.

ACCESS TO THE AMERICAN MARKET.

Two German manufacturers of velvet, Mr. Fritz Reitenstahl and Mr. Carl Vander Upwich of Lobberich, Germany, have recently been in this country looking over the situation in reference to the establishment of a velvet mill. According to them the present tariff has given American manufacturers of velvet such protection that it is hard for their German rivals to compete with them, especially in low and medium priced goods. Realizing the good field which exists in this country for velvet, these German manufacturers intend to establish a velvet mill in this country, and they have visited several states in search of a suitable location. As a result of their action, to which they have been prompted by our Protective Tariff, new capital will be brought into the country, a new industry will be added to our list, and additional opportunity for employment will be added to American workmen.

The primary objects of a protective tariff are to protect American industries already established and those about to be established by American capital, to protect American laborers from the competition of the low priced labor of other countries, and to keep American money at home by having American wants supplied by American made goods. That it has accomplished these objects, our whole industrial history under the protective policy is witnessed. But, in addition to these achievements, the protective policy, as is evidenced by the action about to be taken by these German manufacturers, attracts foreign capital into the country for investment. The removal of this velvet mill to this country is by no means the only instance of its kind. There have been other cases of the removal of an entire industry from a foreign country to the United States. The protective tariff secures the home market to American producers, and so valuable is our home market that foreign manufacturers are willing to bring their capital to this country, to establish their industries here and to become Americanized in order to gain access to the American market.

GIVE THEM WORK TO DO

The proper way to protect American seamen is to give them work to do. We have started the mills going, have given employment to millions by means of a wise protective tariff. Now let the same policy be pursued toward our merchant marine. Make shipping under the American flag the most profitable form of industry of its kind on the globe and we will soon see the condition of our merchant seamen the envy of all nations.—Philadelphia "Inquirer."

NESLUMB IN JAIL

FOR SHOOTING COWS

TOWN OF FULTON FARMER IN TROUBLE.

Went Home Intoxicated and After Threatening His Wife With Shot Gun He Took Revenge on His Own Cattle—Killed One and Wounded Another.

Andrew Neslumb, a well known town of Fulton farmer, is now occupying a cell in the Rock county jail, serving a sixty day sentence for being too familiar with a gun.

While intoxicated Neslumb went home and taking the family shot gun, from a closet went yelling through the house frightening his wife and children almost to death.

After yelling like a Philippine insurgent for a half hour, Neslumb informed his wife that he intended to take a shot at her and to strengthen his statement raised the gun to his shoulder.

Mrs. Neslumb fled from the house and yelled for help.

The drunken granger then marched to the barnyard where he was soon in the midst of his own cattle. After singling out two of the best cows in the drove, Neslumb raised the gun to his shoulder and let go both barrels. In the neck of one valuable cow both shots took effect, and the poor beast fell to the ground dead. The balance of the herd then became panic stricken, and to make things more exciting, they stampeded about the yard trying at every turn to break out.

Neslumb all this time amused himself by taking a shot now and then at long range. One of these shots took effect in the shoulder of one of the animals, and its recovery is doubtful.

The arrival of neighbors then put a stop to the proceeding and Neslumb was hustled off to jail.

Mrs. Neslumb then made complaint against her husband and before Justice Spencer of Edgerton, he was found guilty of "willfully and maliciously torturing one cow and killing another."

He was then sentenced to sixty days at hard labor in the Rock county jail and was brought to this city yesterday by Marshal Welch.

Officers Don't Like It.

Officers of the regular army are greatly disturbed over a clause in the army bill. It provides that "no officer shall be detailed as a bartender" in connection with post canteens. It is said that the military affairs committee of the senate was urged to strike out the word "bartender" on the ground that it was an insult to officers to intimate that he could serve in that capacity. Now that the objectionable phrase has been enacted into law there is much indignation.

A Woman's Power.

A woman may dazzle when she is merry, but she is most charming when she is tender and sympathetic. When her voice takes a softened tone and her eyes look words that her lips hesitate to say—then, if she only knew her power it would be a bad time for the world at large! Only she never knows it. Possibly she charms the most when she is unconscious of it. The very unconsciousness is a part of the charm.

Dr. Holman S. Humphrey, the specialist in Throat and Lung diseases, states:

"The prescription for Dr. J. C. Hale's Cough Cordial I consider a most excellent one, and I have used it in many cases with the best results. EARLY SETTLERS CALLED BY DEATH

MRS. ARTMISSIA AMER DIED YESTERDAY.

Was Eighty-two Years of Age and Had Resided in Janesville Half a Century—Demise of George H. Merry—Funeral of Frank F. Randall Yesterday Afternoon.

Mrs. Artmissia Amer died at 10:45 o'clock yesterday morning at her home, 61 South Franklin street.

The cause of her demise was the infirmities of old age.

Mrs. Amer was the widow of the late William Amer, and was eighty-two years of age.

She was born in Thompkinsville, Kentucky, and came to Wisconsin, settling in the Bower City over fifty years ago.

During the past year, Mrs. Amer has been in poor health and failing fast.

During the summer months of late years she could be seen any sunny day in her front yard with a pet parrot that she seemed much devoted to, and with which she would spend hours at a time talking as polly sat perched in a nearby tree. In this peculiar way many people formed the acquaintance of Mrs. Amer for they would stop hours at a time to hear the conversation as carried on between parrot and mistress. Mrs. Amer leaves three children, Mrs. Mary D. Willey, of St. Paul, Mrs. H. A. Watson and William H. Monroe, of Janesville.

Frank F. Randall

Funeral services over the remains of the late Frank F. Randall were held yesterday afternoon at 2:30 o'clock from Christ Episcopal church, Rev. A. H. Barrington officiating.

The sacred edifice was filled with friends to pay their last respect to one they loved.

The floral offerings were many and embraced many beautiful tokens.

At the close of the services the remains were laid to rest in Oak Hill cemetery.

The following acted as pall bearers: Judge Charles L. Fifield, Dr. George Fifield, Edward Fifield, Walter Fifield, J. es Fifield, Otis Brand.

James Hull

James Hull, of Lima Center, passed away last evening at the advanced age of eighty years from the effects of a stroke of paralysis, together with the infirmities of old age. Mr. Hull was a prominent member of the Masonic order. He was an uncle of Mrs. Geo. A. Warren, of this city. The funeral services will be held Wednesday at Whitewater.

George H. Merry

Funeral services over the remains of the late George H. Merry will be held tomorrow afternoon at 1 o'clock at the residence, 213 South Academy street, the Rev. A. C. Kempton officiating. Interment will be made at Shoppers.

WILL ERECT CHURCH HERE THIS SUMMER

UNANIMOUS VOTE YESTERDAY AT ST. MARY'S.

Congregation Decide to Commence the Work at Once—Ten Thousand Dollars Has Been Pledged and the Balance Will Soon Be Obtained—Will Move Present Edifice.

Members of St. Mary's church, by a rising vote yesterday morning at the regular 10:30 o'clock service, decided to commence work this summer on a new edifice to take the place of the present church.

The congregation rose in a body, there being not one dissenting vote.

Steps were also taken for the holding of a special meeting next Sunday to consider instructions that may be given by Archbishop Katzer, of Milwaukee, who now has the matter in hand.

Ten thousand dollars has already been pledged, which includes \$6,500 in cash which is now on hand.

The new edifice will cost in the neighborhood of \$25,000 and will have a seating capacity of between nine and ten hundred.

It will be constructed of brick and will be furnished throughout in the latest style of Catholic church architecture. The altar will be one of the most beautiful to be found in any church in a city the size of Janesville.

A large and costly pipe organ will grace one end of the proposed edifice.

Rev. Father Goebel, pastor of St. Mary's church, stated this morning that the present church will soon be moved to the lot at the corner of Prospect avenue and Wisconsin street, where it will serve the purpose of a place for worship during the time the new church is being erected.

After the completion of the new church just what will be done with the present structure remains to be seen.

The new church will occupy the same site that the present one now commands and when completed will be a credit to the city.

Welcome Punishment to Bobby.

A little boy went to church with his mother. The service was somewhat long and utterly incomprehensible to the child. Consequently he fidgeted. His mother reproved him several times. At last she leaned toward him. "Bobby," she whispered, "if you act badly I'll never bring you to church again." A gleam of hope dawned in Bobby's weary eyes. "Mamma," he said, eagerly, "how bad will I have to be?"

Plenty of Trees in Paris.

Paris contains more trees than any city in the world, which is the reason why its streets and avenues are so beautiful. These trees are principally of three kinds—the chestnut and acacia, such as line the Champs Elysees, and the lime tree, which grows in such abundance in the Bois de Boulogne and on certain of the other boulevards.

Clocks Without Hands or Faces.

In Switzerland they are making clocks which do not need hands and faces. The clock merely stands in the hall and you press a button in its stomach, when, by means of the phonographic internal arrangements, it calls out "half-past 6" or "twenty-three minutes to 11," as the case may be.

SCHULTZ AS NEWSBOY DIVINE

Gave Two Interesting Talks at Y. M. C. A. Building.

Rev. D. L. Schultz of Philadelphia, the "Newsboy Preacher," gave two addresses at the Y. M. C. A. building yesterday. In the evening he spoke at the men's prayer meeting, delivering a most interesting talk.

In the afternoon at the regular meeting, Rev. Schultz addressed a large gathering. He told of his past life; of how he was turned loose on the streets of Philadelphia at the age of five and a half years, and of how he earned a living by selling papers.

At the age of seventeen he was converted, and has ever since led a christian life by preaching his experience to others.

Last evening Rev. Schultz held forth at the Mary Kimball mission home.

BURNING GRASS CAUSED CALL

Fire Department Was Called Out Early Last Evening.

Burning grass near the corner of May and Harriet streets was the cause of the fire alarm being sent in from box 181 at 7:17 o'clock last evening.

The department responded and the flames were soon extinguished with brooms.

The burned district was a half mile beyond Knipp's brewery and was too near the wooden railroad bridges on the Evansville cut-off to admit of any great risk.

MAY CALL TROOPS.

President Considering Plan of Asking for Soldiers.

Washington, April 17.—President McKinley is said to be seriously considering the advisability of issuing a call for volunteers for the provisional army of 35,000 for service in the Philippines. There are persistent rumors that he has decided upon such action, but they cannot be verified in authoritative quarters. Adjt.-Gen. Corbin, who has the full confidence of the president in matters relating to the army, says the president has not discussed or considered such a call. On the other hand, men who have seen the president during the last two or three days in the interest of applicants for commissions, have come away from the white house with the impression that a call would probably be issued in a short time.

Fear Epidemic of Smallpox.

Iowa City, Iowa, April 17.—Iowa is threatened with an epidemic of smallpox, according to Dr. J. C. Shrader of Iowa City, a member of the state board of health, who returned from an investigation tour of the state. He found that at Lisbon, a young man named Zimmerman had died of smallpox. The doctor who attended him declared the ailment was ivy poisoning and therefore a public funeral was held, 250 people attending. About a dozen people who were present are now sick with smallpox. Now Mount Vernon, Lisbon, Mechanicsville and the neighboring towns are in a fever of excitement.

"Great Blessing."

Wife of a Prominent Methodist Minister so Refers to That Valuable Specific for Nervous Diseases, Dr Miles' Nervine It Cured Her.

More than half the sickness and disease in this world comes from weak nerves, loss of vitality and nerve force. When the nervous power is depressed, then the food is imperfectly digested, assimilation is interrupted, the albumen and fibrin of the blood—the nutritious principles of the blood—become deficient in their relative proportions to the other parts of the blood, and the health suffers. It cannot be repeated too often that the nerves control every part of the body, and anything which irritates the nerve centers, weakens the life-giving and life-sustaining power of the whole system. Dr. Miles' Restorative Nervine is the exact remedy for that large class of feeble, thin blooded, nervous and often hysterical persons whose greatest need is a thorough rest and quiet for the tired brain and the overwrought nerves. Among the many thousands of such sufferers from a tortured nervous system was Mrs. A. V.

Babbs, wife of Rev. A. V. Babbs, pastor of the M. E. church, Plainfield, Ill.

Mrs. Babbs says: "For a long time I was a sufferer from nervous attacks of the most severe nature. My rest was greatly broken by sleepless nights, and my health was very poor. But lately I have been taking Dr. Miles' Restorative Nervine with great benefit. Oh! what a blessing it is to me, in quieting my nervous attacks. It has given me new life and new hope for a permanent change for the better in my health."

Mrs. F. M. Dunkin, of LeRoy, Ill., sends the following: "For a year I was very poorly, and for six months I was completely prostrated and most of the time was confined to my bed by a nervous trouble the doctors called nervous spasms. I would have smothering spells, accompanied by a gripping sensation in the chest, when it seemed as if the breath would leave me. I would also have spells when it seemed as if the nerves were paralyzed. I could not sleep at night and was restless and miserable. Failing to get help from our family physician I

began taking Dr. Miles' Nervine. I felt better from the first dose, and after taking six bottles I was restored to my usual good health. In the past year I have had no return of the old trouble and I feel that the relief is permanent."

If you are "played out," cannot sleep, cannot digest your food, cannot work or attend to your daily duties and have lost your courage, Dr. Miles' Nervine will show itself to be the best friend you ever had. It will enable you to forget your troubles, and will restore you to health again.

Sample Treatment Free.

A trial package of Dr. Miles' favorite treatment consisting of Dr. Miles' Restorative Nervine, Dr. Miles' Anti-Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person who will send name and address on a postal card, requesting the samples, and mentioning the name of this paper to DR. MILES MEDICAL CO., Elkhart, Ind.

Maple City Self-Washing Soap works perfectly in hard water. It bleaches white clothes and sets fast colors.

Close of Y. W. C. A.

Milwaukee, Wis., April 17.—The pulpit services by women Sunday night brought the international convention of Y. W. C. A. workers to a close. Women interested in the Y. W. C. A. work led the services in seventeen of the local churches in the evening, when public announcement was made of the offer that Miss Elizabeth Plankinton had made to the local association to erect a home for it on condition that a lot be secured for the site.

Gen. Shafter Has Fever.

Detroit, April 17.—Maj.-Gen. Wm. R. Shafter spent Sunday here in bed, the result of a recurrence of the malarial attack. He was sufficiently recovered tonight, however, to resume his journey to the Pacific coast. The general said if he continues to suffer he would stop at Sycamore, Ill., the home of his brother, and recuperate. If his health improves he will continue through to the coast.

MAPLE City Self-Washing soap washes white clothes and sets fast colors.

WINE OF CARDUI

Woman's Crowning Virtue.

BRIMON, Mo., July 27. For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

A LARGE BOTTLE OF WINE OF CARDUI COSTS \$1.00 AT THE DRUG STORE.

Another Talk With You On Flour.

THE price of Flour is still hanging high with the millers. They are asking the retailer a good sight more in car lots for fancy patent Flour than we are selling it at in single sack lots. The mill quotations are \$4.00 per barrel—\$1.00 per sack—in car lots. Our prices for the choicest patent Flours of the entire country are as follows:

Washburn, Crosby & Co.'s Gold Medal, \$1.00 per sack.	Jennison's Very Best, \$1.00 per sack	Hard to Beat, :: AT :: 95c per sack.
---	---	--

We have protected our customers in Flour prices and were able to do so through our heavy early buying, securing the lowest prices when the market was just right.

We Do Our Best at All Times

Along all grocery lines to take care of purchasers in the matter of low prices. Our invoices are always very large and whether there is an advance or not we are able to secure lower prices than small purchasers.

Gold Medal Flour will make thirty-five loaves more bread to the barrel than any other Flour. Its leavening powers are greater in every way. Gold Medal Flour requires plenty of water in its mixing. You will never be disappointed in its qualities.

Hard to Beat Flour is claimed by many to be equal to many so-called fancy patents. We sell it, however, at 95c per sack.

You should be our Flour Customer
